

Quicken Basics

Learn the basics of *Quicken*, the leading software for the management of personal finances. During this course you will learn to manage your checking and savings accounts using your computer. You will learn how to use categories to track your spending and how *Quicken* can be used to help you at income tax time. This course will be taught using Quicken Premier 2008, for Windows, but will be useful for newer versions of Quicken on both Windows and Macintosh. (2 Sessions)

Prerequisite: *Intro to (either platform) Computers* or equivalent

Cost: \$25 members, \$30 non-members (includes \$5.00 materials fee)

Register by: Wednesday Noon of the week before the course begins
